

WELCOME LETTER

Hi everyone, my name is Rafael Rodríguez-Pina, founder of +TOMATE together with my wife Montserrat Gómez in august 2015, three years have gone by since we started this contribution to HEALTH IN YOUR KITCHEN. The main objective at the start was to make a new, useful, healthy and very tasty product as NATURAL INSTANTANEOUS + TOMATE accessible to everyone, convinced by the idea that it should be ESSENTIAL IN EVERY KITCHEN IN THE WORLD and always with the idea of giving the best of us to leave our sons a more sustainable environment.

We weren't wrong then and neither are we now when we say that using dehydrated +TOMATE as a supplement of our diet, we help ourselves and we help future generations enjoy our nature for a long time.

Since then we have worked step by step to build an ecosystem that gave us the opportunity to make the benefits of +TOMATE accessible to all of you, explaining how it is used, what it is for, its dosage, its nutritional properties, recipes, etc. We keep working with the hope that the best is yet to come. We are guided by curiosity, the ability to give to the entire society and ABOV IT ALL MAKING YOU PART of our growing community of sustainable products, which are healthy, useful and available to everyone to make your plates easy, fast and very healthy.

New mates such as our business manager María Rodríguez Blázquez have joined the team, in a journey that has allowed us to build up a team that expects to give you all happiness and strength.

Life on the Internet goes by fast and communication lines grow unstoppably, which is fine, but which makes us different and unique is that our acts along with our words are able to get the warmth of our good work near YOU. That's why we go a step further today and we launch our web.

We want to make accessible to you all the information about our +TOMATE : recipes, improvements, news, dosage, ways to use it, etc.

In this blog we will upload news, you will know about our activity, where we are and we will attend all your questions. We want it to be a way to communicate with you all to bring health to your kitchen.

As in every opening we want to celebrate with you in ten days when delivery will be completely FREE for all our products, all you have to do is to subscribe to our newsletter and give us a like on www.facebook/mastomate.

Lastly, let me introduce our most recent incorporation: "Tomi", our chat bot, will take you all through Facebook to discover "El Jamón del Tomate", a new way of healthy eating that is shaking up all kitchens in Spain.

RAFAEL
