Recipe: Rehydration +Tomate Powder©

Dry use: add directly to your plates.

Recommended rehydrated use:

1. 250 ml of water in a pan.

2. Add a couple soup spoons of tomato powder (approximately 20g per spoon).

3. Stir with a blender manually for a minute.

Fast rehydration: heat half a cup of water until boiling point in the microwave, take it out carefully and add a spoonful of powder tomato. Stir until its dissolution.
